Full Stack Web Developer with a background in Executive Level Management and a life-long dedication to learning. He has ability to learn and collaborate in rapidly changing environments and compositions.

Effective at combining creativity and problem solving to develop user-friendly applications. Known among colleagues for strong wit and attention to detail no matter the complexity or detail of the project.

Eager to tackle web development/design challenges to achieve lasting impacts on user experience.

His perfect balance of technical and managerial skills stands him apart from the crowd.

PROJECTS

ca-TOOL-ogue
Creator
- Developed full stack application using the MERN stack. Made for ACE handyman services LLC.
- Built app with React while managing State through Asynchronous useState actions.
- Implemented the React Router DOM to allow nested RESTful routing.

React Portfolio
Creator
- Designed an eye catching developer portfolio to showcase my projects and skillset.
- Developed front-end using Create React App along with CSS, Bootstrap, and Vanilla JS.
- Check out my Portfolio for more projects!
